## NO RELIEF ON MARKET

Conditions That Existed on Saturday Still Continue and Stocks Are at Low Ebb.

LOUISVILLE & NASHVILLE

Reports of Retrenchments on More Than One Important System Were Current.

NEW 1 rone was no relief to-day from the apathy of the stock market, which was at about as low an ebb as on Saturday.

The anniversary to-day of the panic of 1901 was the occasion of which discuss

The anniversary to-day of the panic of 1991 was the occasion of much discussion and moralizing, and of many striking comparisons between the speculative interest of that period and of the present. Reports of carnings continue the showing of a decilning level from last year, with a high level of operating expenses remaining in force.

ing of a declining level from last year, with a high level of operating expenses remaining in force.

Reports of coming retrenchments on more than one important system were current, and some hope was felt that benefit will result to the net returns. The sight upward tendency of prices seemed due rather to the intermittency of the market following the decline of last week than to any change of sentiment. The passing of the 10-10-000 warrant for the Panama Canal payment marks the high tide of benefit on the operation to this market. The counter operation of withdrawal of government deposits with the banks is to be followed at once by an additional withdrawal of ten percent, more. The gold necessary to complete the amount of the purchase must also go to Paris from New York. While no immediate effect on the money market is expected, the course of the autumn money market receives some discussion. The fact that government revenues are running behind expenditures points to some difficulty in affording any treasury assistance to the fall money market, such as has been given disting the crop moving period every year for several years back. The advance of housing hower with other railroad stocks at higher prices. Consolidated gas wentened on the belief that the Remsen gas bill would be vetoed. There were no movements of general importance.

A recovery of a point in United States Steel 2d 5's was the festure in the market. Total sales, par value, 11,000.000.

United States 3's, registered, declined 1-4 per cent, on call.

Total sales were 119,000 shapes.

#### COTTON MARKETS.

COTTON MARKETS.

NEW YORK, May 9.—It was a particularly narrow day in cotton. The market opened steady at unchanged prices to a decline of 6 points with the new crop months showing relative steadiness. The declines were in sympathy with a lower set of cables, which caused some inquidation and some setting by local bears. The weater, however, was not anticed in some sections, and with more or less uncertainty as to the showing of the weekly Weather Bureau to-morrow, new crop shorts covered in moderate volume.

Brokers supposed to represent a leading Wall Street interest were offering small amounts of July. On the other hand, New Orleans appeared to be buying the summer positions, and after a decline of about 295 points as compared with Saturday's fload figures the market began to rally, working up point by point until in the late trading prices were net 295 points as compared with Saturday's fload figures the market began to rally, working up point by point until in the late trading prices were net 295 points as compared with Saturday's fload figures the market began to rally, working up point by point until in the late trading prices were net 295 points as compared with Saturday's fload figures the market began to rally, working up point by point until in the late trading prices were net 295 points as compared with Saturday's fload figures the market began to rally, working up point by point until in the late trading prices were feet 295 points as compared with Saturday's fload grains a 342 last week and 8,509 last week and 8,702 last year. For the week 25,000 bules against 2,508 last year, and at Houston 459 bales against 2,508 last year.

### THE WORLD'S FAIR AT ST. LOUIS

Is Easily the Crowning Achievement in Universal Expositions

THE WORLD IN MINIATURE

All to be Pictured and Told About in the " Forest City" Art Portfolios,

Portfolios,

There is no doubt but that the Louisliana Purchase Exposition will prove the most notable civic event in the world's history. The numerous departments will exhibit to the visitor, the Industries, the Aris, the Sciences of all unitions, and its Ethnological Department will assemble the racial representatives of more nations than have ever before been gathered together in one place; and not only the dwellers in civilized lands will be there, but the barbarian, also, will bear his part in this brilliant pageant of the nations.

The Exposition will, indeed, be universal.

An almost fabulous sum of money, aggrogating eighty million dollars, and untold labor, have been lavished upon the enterprise; and all this for an exhibition that is to last for only seven months, at the end of which time the exhibits will be removed and the buildings demolished.

A vivid record gand remembrance of the event, however, will remain for those who are so fortunate and thoughtful as to secure the "Forest City" Art Fortfolios.

This series comprises the cream of the entire collection of photographs secured by the official photographers of the entire collection of photographs secured by the official photographers of the office of them but that is well yorth preservation; not alone from the specific interest and pleasure which it preservation; not alone from the specific interest and pleasure which it preservation with the descriptive matter which accompanies each view.

The photographs are taken expressly for the work by the official photographers of the fair, and the descriptions are from the pen of Walter B. Stevens, secretary of the Louislana Purchase Exposition. The series is, therefore, doubly official.

The Times-Dispatch, ever on the alert to please its readers, secured the exclusive right to distribute these official views in this territory, and, as a consequence, the readers of this paper will be especially favored; the price to them being nominal, while to others the cost of each portfolio is 25 cents.

Part I now

dent Cleveland, as they appeared at the dedication ceremonies. An interesting feature of this number is a reproduction of "The House That Grant Built," being the cabin in which the great general lived a half century ago. The Palace of the Republic of Mexico is also shown, this being the first foreign building completed.

Partfolio No. 2 which is now also

being the first foreign building compieted.

Portfolio No. 2, which is now also
ready, presents in the highest style of
art reproductions of the following photographs:
"New Jersey Building," "The Protest
of the Sloux," "The Galveston Flood,"
"Canada Building," "United States Government Building," "Why The Forest
City?" "The Plaza of St. Anthony,"
"Louisiana Building," "General View,
Embracing Palaces of Electricity, Manufactures and Education," "Palace of
Mines and Metallurgy," "Chinese Building," "North Front Palace of Manufactures," "The Japanese Commission,"
"Waterway Promenade," "Facade and
Lawn."

"Waterway Promenade," "Facade and Lawn."

The series is thus doubly official and will afford the only authentic pictorial and descriptive record of the event.

When completed, it will, indeed, constitute/a splendid collection to be added to any library.

It will afford infinite entertainment and amusement for every member of the family, and no household should fail to possess the work, especially as it can be secured practically free, the only charge being the nominal sum of ten cents, to cover cost of handling, wrapping, malling, etc.

### FINANCIAL.
